

MBA

Master of Business Administration

The Master of Business Administration programs at Colorado Christian University focus on management and leadership. You will develop critical thinking, decision-making, and people management skills. Many different styles of leadership are explored including transactional, transformational, authentic, and “servant leadership” from a biblical perspective, incorporating the eternal wisdom and love of Jesus Christ in the way you lead others. You will actively engage in endeavors that have a sustainable impact in public policy and social change, encouraging you to apply your learning experience in real time.

CCU's MBA programs are ideal for adults who aspire toward senior management positions, such as CEO or COO, or want to be successful business owners or ministry leaders. The principles and skills you'll acquire will apply to you in both for-profit and nonprofit fields, as well as the military and law enforcement — virtually any organizational setting.

CCU's MBA program offers six emphases: Leadership, Advanced Accounting, Healthcare Administration, Project Management, Cyber Security, and Enterprise Agility.

Students can use credit by portfolio to substitute up to nine (9) credits (three courses) or add a custom emphasis.
